Different configurations were tested for thread count. The program was run with confidence 0.99, percentage 0.5 and eps 0.5. Other configurations were tested. Thread count of 1, 3, 5, 10 was tested with above-mentioned configuration for 3 PointCloud files. According to the graph thread count of 3 is the best. Measurements are in milliseconds.

Column1	PointCloud1	PointCloud2	PointCloud3
1	43.2411	54.1512	56.2286
3	34.1625	44.3383	45.5288
5	38.2474	47.0222	46.1308
10	35.5793	47.0412	45.513
